# FERPA

On some occasions, a student may wish to give SAIC permission to share information from his or her education records with specific individuals.

For example, it is often beneficial to the student for SAIC staff and faculty to be able to discuss student information with a parent, guardian, spouse or other support person.

You may, at your discretion, give SAIC faculty and staff permission to release personally identifiable information to a third party (e.g. a parent/guardian, emergency contact, spouse, or potential employer) by providing written consent.

You may use the Student Authorization to Release Information Form. Please return the completed form to the Director of Registration and Records. By completing and returning this form, you consent to SAIC's disclosure of information from your student records to the person that you designate on the form.
