

SAIC WIRELESS NETWORK ACCESS

Apple iOS Devices

PLEASE NOTE: We strongly recommend first backing up your iOS device's data (music, videos, photos, etc.) by syncing with iTunes. While connected to iTunes, control+click on your device's name in the left column and select "Back Up."

Browse to mobile.saic.edu using Safari on your iOS device touch. On an iPhone, you can access this web page over 3G/4G/LTE or any wireless network. On an iPad or iPod touch, you can access this page over any wireless network.

You will be asked to log in. Enter your SAIC username and password (use the same username and password you use for SAIC Gmail).

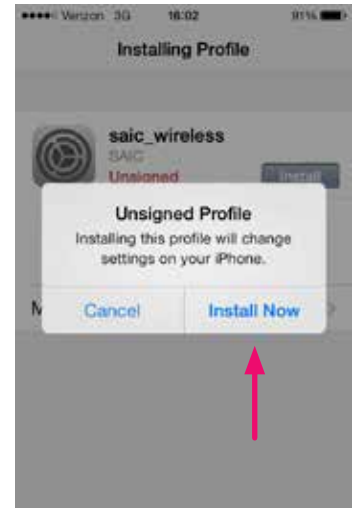

After you log in, read through the information.

In order to download the SAIC iPhone wireless config file, you must check the box to acknowledge that you have read and understand the AIC/SAIC Network Acceptable Use Policy.

Once you check the box, you can click the link to download the config file.

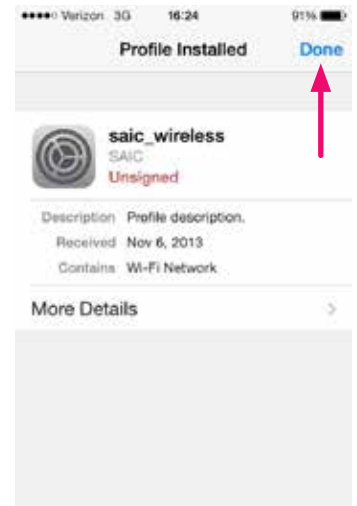

Click the "Install" button and then click "Install Now" in the pop-up window.

Enter your password to log on to the SAIC wireless network.

Click "Done."

Click "Accept Certificate." You can now log on to the SAIC wireless network with your iOS device.

When you are using SAIC's wireless network the network's strength will be displayed in your device's status bar.
