"I beg you, to have patience with everything unresolved in your heart and to try to love the questions themselves as if they were locked rooms or books written in a very foreign language. Don’t search for the answers, which could not be given to you now, because you would not be able to live them. Live the questions now. And the point is to live everything. Perhaps then, someday far in the future, you will gradually, without even noticing it, live your way into the answer.”

Rainer Maria Rilke

"Ent of the teeth."

1. Early stage. 2. Late stage. 3. Int. cheek tum.

3. Special dental germ (permanent)

This portion of the organ is called the tooth of cells immediately adjacent to the root having a latent dental germ (permanent).
