FAFSA® and NSLDS® are registered service marks of Federal Student Aid, U.S. Department of Education.

Introduction

This document lists the help topics that are provided for each question of the 2019–20 *Free Application for Federal Student Aid* (FAFSA[®]) form.

Throughout this document, “you” and “your” refer to the student. “School” refers to the college, career school, or postsecondary institution the student is attending (or applying to).

What is the FAFSA[®] form?

To apply for federal student aid, such as federal grants, work-study, and loans, you need to complete the FAFSA form. Completing and submitting the FAFSA form is free, and it gives you access to the largest source of financial aid to help pay for college or career school. In addition, many states and colleges use your FAFSA information to determine your eligibility for state aid and school aid, and some private financial aid providers may use your FAFSA information to determine whether you qualify for their aid.

How do I complete the FAFSA[®] form?

There are several ways to fill out and submit the FAFSA form:

- Log in at fafsa.gov to apply online (recommended) or
- Use the myFAFSA component of the myStudentAid mobile app or
- Complete a FAFSA PDF (note: you must print out and mail the FAFSA PDF for processing) or
- Request a print-out of the FAFSA PDF by calling us at 1-800-4-FED-AID (1-800-433-3243) or 334-523-2691 (TTY for the deaf or hard of hearing 1-800-730-8913); then fill out the form and mail it for processing

When do I submit my FAFSA[®] form?

For the 2019–20 academic year (July 1, 2019, to June 30, 2020), you can file your FAFSA form beginning Oct. 1, 2018. You will need to provide 2017 tax information.

Note: Keep in mind that while the 2019–20 FAFSA deadline for federal aid is June 30, 2020, your state and school probably have earlier financial aid deadlines for students who want to receive the state’s or school’s aid. To maximize your potential aid, you should submit a FAFSA form as early as possible after Oct. 1, 2018.

If You Previously Submitted a FAFSA[®] Form

If you filed a 2018–19 FAFSA form, you may see a “FAFSA RENEWAL” button, which will allow you to save time because it will prefill your 2019–20 FAFSA form with certain information from your 2018–19 FAFSA form.

Using Your FSA ID to Sign Your FAFSA[®] Form

We strongly recommend you use an FSA ID, which is a username and password combination, to sign your FAFSA form electronically. Your FSA ID also can be used to sign loan contracts and to access certain information online. While you can create your FSA ID as you’re completing the FAFSA form, getting it ahead of time and using it to begin your FAFSA form on fafsa.gov cuts down on errors and delays.

If you're a dependent student, one of your parents whose information is reported on the FAFSA form will also need an FSA ID so that he or she can sign your application electronically. It's important that you and your parent each create your own FSA ID. You should not create an FSA ID for your parent, and a parent should not create an FSA ID for you.

For additional information on the FSA ID and to create your FSA ID, go to

[StudentAid.gov/fsaid](https://studentaid.gov/fsaid).

Additional Resources

After reviewing this document, if you have additional questions about how to complete the FAFSA form, you can contact the Federal Student Aid Information Center (FSAIC) via email at StudentAid@ed.gov or by phone at 1-800-4-FED-AID (1-800-433-3243), or you can contact the financial aid office at the school you are interested in attending. You can also visit Federal Student Aid's primary website—[StudentAid.gov](https://studentaid.gov).

Instructions for Each Question

When you complete the FAFSA form online at fafsa.gov, you will see instructions for each question. In addition, further help for each question can be accessed by selecting the question mark icon located to the right of the question. The remainder of this document is a compilation of the text that will show after selecting the question mark icon to the right of each FAFSA question.

Note: If you complete the FAFSA form online, then you may automatically skip some questions based on your answers to earlier questions. So, don't worry if you see information for questions in this document that you didn't see on the application.

Overview for Questions 1–31 (All Applicants Must Complete)

Purpose: These questions collect personal identification information (name, telephone number, address, Social Security number, and so on) as well as other information that affects your basic eligibility for federal (or state and some institutional) student aid.

This is your proper name, not a nickname, and it must match exactly the name on your Social Security card. For assistance with updating the information on a Social Security card, call the Social Security Administration at 1-800-772-1213 or visit the Social Security Administration's Web site at <https://ssa.gov>.

Use street address abbreviations, such as APT (apartment) or AVE (avenue), if the address is longer than the space provided.

Only use letters (A-Z), numbers (0-9), periods (.), commas (,), apostrophes ('), dashes (-), number symbols (#), at symbols (@), percent symbols (%), ampersands (&), slashes (/), or blanks (spaces). No other characters are allowed.

Some communications regarding your financial aid application will be sent to your permanent mailing address if you do not provide an e-mail address. Do not use the address of your school's financial aid office, any other office, or an address you use only during the school year.

See [StudentAid.gov/help/mailing-address-outside-us](https://studentaid.gov/help/mailing-address-outside-us) for instructions on how to enter your address if you live outside the United States.

Question 5: Your city

You must enter the city for your permanent mailing address.

Only use letters (A-Z), numbers (0-9), periods (.), commas (,), apostrophes ('), dashes (-), number symbols (#), at symbols (@), percent symbols (%), ampersands (&), slashes (/), or blanks (spaces). No other characters are allowed.

For information on entering foreign addresses, see [StudentAid.gov/help/mailing-address-outside-us](https://studentaid.gov/help/mailing-address-outside-us).

Question 7: Your ZIP code

You must enter the ZIP code for your permanent mailing address.

For Mexico, Canadian Provinces, or another address outside the United States, enter 00000 for the ZIP code.

Question 8: Your Social Security Number

You must enter your Social Security Number (SSN) to be considered for Federal Student Aid. Enter the SSN that is printed on your Social Security card. Enter this number without dashes. For example, enter 123456789.

- Your SSN is automatically filled in on your FAFSA based on the FSA ID or SSN you enter on the “Login” page. If you incorrectly enter your SSN on the “Login” page, you cannot change it and you will have to start a new FAFSA.

Special instructions for citizens of the Freely Associated States:

If you do not have an SSN and are a citizen of the Federated States of Micronesia, the Republic of the Marshall Islands, or Palau, otherwise known as the Freely Associated States, enter 666 in the first three positions of the SSN field and leave the remaining six positions blank. When your application is processed, the last six digits of the SSN will be assigned to you. **You should save that number and continue to use the same one every year you complete a FAFSA.**

If our system has assigned you a nine-digit identifier beginning with 888, enter that identifier, but replace the 888 with 666.

Question 9: Your date of birth

You must provide your date of birth. Enter your date of birth in “mmddyyyy” format. For example, if your birthday is May 3, 1980, enter 05031980. Your Social Security Number (SSN), name, and birth date must match the information on file with the Social Security Administration.

Question 10: Your telephone number

Enter your telephone number. Provide the area code first. Enter the numbers, without parentheses and dashes. For example, 2025551212. If you do not have a telephone number, you may leave this question blank.

Question 11: Your driver's license number

Enter your driver's license number or the number on your identification card.

Use only numbers (0-9), letters (A-Z), dashes (-), asterisks (*), or blanks (spaces). An asterisk is not allowed in the first position, and the answer cannot contain all asterisks.

Question 12: Your driver's license state

Select the state that issued your driver's license or identification card. Select **Foreign Country** if your license was issued by a foreign country. If you do not have a driver's license or identification card, leave this field blank.

Question 13: Your e-mail address

Enter your e-mail address to receive important information about your financial aid application, such as your Student Aid Report (SAR), renewal reminders, and saved application reminders.

A valid e-mail address usually looks like this:

- matthew@msn.com or
- ashleydoe@yahoo.com

E-mail addresses have only one @ symbol. The first character cannot be the @ symbol. Periods cannot be first, last, or next to another period.

Federal Student Aid uses your e-mail address to communicate important information about your application. Visit [StudentAid.gov/help/privacy](https://studentaid.gov/help/privacy) for more information on the way we use the information provided on this form.

Note: Some e-mail systems differentiate between uppercase and lowercase letters. Make sure you enter your e-mail address in the format that your e-mail provider will recognize.

To ensure that our messages can be delivered to your inbox, enter our originating e-mail address, Noreply@FAFSA.gov into your e-mail address book.

Question 14: Are you a U.S. citizen?

Select the option that indicates your citizenship status. Select **U.S. citizen (or U.S. national)** if you are a U.S. citizen or U.S. national. A person is a United States citizen by birth or by naturalization. Persons (except for the children of foreign diplomatic staff) who are born in the 50 states, the District of Columbia, and in most cases, Puerto Rico (PR), the U.S. Virgin Islands (VI), Guam (GU), and the Northern Mariana Islands (MP) are U.S. citizens, as are most persons born abroad to parents (or a parent) who are citizens. All U.S. citizens are considered to be U.S. nationals, but not all nationals are citizens: natives of American Samoa and Swain's Island (AS) are not U.S. citizens but are nationals.

Select **Eligible noncitizen** if you are not a U.S. citizen (or U.S. national) and you are one of the following:

- A U.S. permanent resident, with a Permanent Resident Card (I-551), or a conditional permanent resident with a Conditional Green Card (I-551C)
- Other eligible noncitizen with an Arrival-Departure Record (I-94) from the Department of Homeland Security showing any one of the following designations: “Refugee,” “Asylum Granted,” “Parolee” (I-94 confirms that you were paroled for a minimum of one year and status has not expired), T-Visa holder (T-1, T-2, T-3, etc.), or “Cuban-Haitian Entrant”
- The holder of a valid certification or eligibility letter from the Department of Health and Human Services showing a designation of “Victim of human trafficking”
- A resident of the Republic of Palau (PW), the Republic of the Marshall Islands (MH), or the Federated States of Micronesia (FM)
- A Canadian-born Native American under terms of the Jay Treaty

Select “Neither citizen nor eligible noncitizen” if you are in the U.S. and have:

- Been granted Deferred Action for Childhood Arrivals (DACA)
- A F1 or F2 student visa
- A J1 or J2 exchange visitor visa
- A G series visa (pertaining to international organizations)
- Other categories not included under U.S. citizen and eligible noncitizen

If you are neither a citizen nor an eligible noncitizen, you are not eligible for federal student aid. If you have a Social Security Number but are not a citizen or an eligible noncitizen, including if you have been granted DACA, you should still complete the FAFSA because you may be eligible for state or college aid. You should check with your college’s financial aid office to see what kind of financial aid you may be eligible to receive.

Question 15: Your Alien Registration Number

Enter your eight- or nine-digit Alien Registration Number. If your Alien Registration Number is eight digits, type a zero before the Alien Registration Number. Do not enter the “A” before the number.

An answer is not required if you are a citizen of the Federated States of Micronesia, the Marshall Islands, or Palau.

Question 16: What is your marital status?

Select the answer that describes your marital status as of the day you submit your Free Application for Federal Student Aid (FAFSA). If your marital status has changed or will change since the time the application was initially submitted, check with your college’s financial aid office.

“Married or remarried” does not mean living together unless your state of legal residence recognizes the relationship as a common law marriage.

For FAFSA purposes, a married couple is separated if the couple is considered legally separated by a state, or if the couple is legally married but has chosen to live separate lives, including living in separated households, as though they were not married. If you and your spouse are separated but living together, select “I am married/remarried,” not “I am separated.”

Note: When two married persons live as a married couple but are separated by physical distance (or have separate households), they are considered married for FAFSA purposes.

Question 17: Month and year you were married, separated, divorced, or widowed

This question **cannot** be left blank unless you are single.

If you are legally married as of today, enter the date you married or remarried. If you are currently separated, enter the date you became separated. If you are currently divorced, enter the date you separated or divorced, whichever is earlier. If you are currently widowed, enter the date you became widowed.

Enter two numbers for the month and four numbers for the year. Do not include a slash (/). If the month is less than 10, enter a zero in front of the number. For example, if you were married in August 1989, enter 081989.

Question 18: What is your state of legal residence?

Select your current state or country of legal residence. Select Foreign Country if your legal residence is in a foreign country.

Your answer represents the residency or domicile of your true, fixed, and permanent home. If you moved into a state for the sole purpose of attending a school, do not count that state as your state of legal residence.

Each state determines legal residency differently. You should contact your college’s financial aid office for assistance with state of legal residence qualifications.

Question 19: Did you become a legal resident of your state before January 1, 2014?

Select Yes if you became a legal resident of the state you entered in question 18 before January 1, 2014.

Select No if you became a legal resident of the state you entered in question 18 on or after January 1, 2014.

States use various criteria for determining whether you are a resident for purposes of state financial aid. However, all states consider you a resident if you became a legal resident of that state more than five years ago. Contact your college’s financial aid office for assistance with state of legal residence qualifications.

Question 20: Month and year you became a legal resident

You indicated you were not a legal resident of the state entered in the state of legal residence question before January 1, 2014. You must type the month and year you became a legal resident.

Your state will use this information to determine if you meet its criteria for state financial aid.

Enter two numbers for the month and four numbers for the year. If the month is less than 10, type a zero in front of the number. For example, August 2014 must be entered as 082014. You cannot enter a year that is later than the current one.

Question 21: Are you male or female?

Your gender is used to determine if you need to register with the Selective Service System. Most male citizens and male immigrants must register with the Selective Service System to receive federal student aid. This requirement applies to any person assigned the sex of male at birth.

- Select male if you are male.
- Select female if you are female.

Question 22: Do you want us to register you with the Selective Service System?

If you are a male (age 18-25) and not registered with the Selective Service System, select Yes and the Selective Service System will register you. You can also register over the Internet at <https://ssa.gov>. This requirement applies to any person assigned the sex of male at birth.

If you believe that you are not required to register with the Selective Service System, you should call the Selective Service System office at 1-847-688-6888 for information regarding exemptions or visit the Selective Service System Web site at <https://sss.gov/Registration-Info/Who-Registration>.

Question 23: Have you been convicted for the possession or sale of illegal drugs for an offense that occurred while you were receiving federal student aid (grants, work-study, and/or loans)?

This question **cannot** be left blank.

Select No if:

- You have never received federal student aid.
- You have never had a conviction for possessing or selling illegal drugs.
- The conviction was not a state or federal offense.
- The conviction occurred before you were 18 years of age and you were not tried as an adult.
- The conviction was removed from your record.
- The offense that led to your conviction did not occur during a period of enrollment for which you were receiving federal student aid (grants, work-study, or loans).

If you select Yes, you may still be eligible for federal student aid. Additional questions will display to help you determine your eligibility. Past convictions do not automatically make you ineligible for student aid.

Even if you are not eligible for federal student aid, complete and submit your Free Application for Federal Student Aid (FAFSA) because you may be eligible for state or school financial aid.

For more information about drug-related convictions, call the Federal Student Aid Information Center at 1-800-4-FED-AID (1-800-433-3243).

Questions 24 and 25: Highest school your parent completed

Select the answer that best describes your parent’s highest level of education completed.

All students will be considered for federal student grants and loans. You can decline any financial aid that is offered to you, including Federal Work-study.

Overview for Questions 32–45 (All Applicants Must Complete)

Purpose: All students (dependent and independent) must provide their financial information for these questions. The Expected Family Contribution (EFC) calculation, determined by a formula specified by law, uses, among other things, a family's income, assets, exemptions, and household size to determine whether the family has discretionary income. If the family has discretionary income, a portion, and only a portion, of that income is included in the EFC as available for the student's educational costs.

Note: For the 2019–20 FAFSA form, you will need to provide 2017 tax information.

Question 32: Have you completed a 2017 income tax return?

You must select the answer that describes your tax filing status:

- Already completed
- Will file
- Not going to file

If you indicate you “Will file” a 2017 tax return and your 2017 income is similar to your 2016 income, use your 2016 income tax return to provide estimates for questions about your income. If your income is not similar, click Income Estimator for assistance estimating your adjusted gross income, and answer the remaining questions about your income to the best of your ability.

Once you file, you must correct your FAFSA, changing 1) your filing status from “Will file” to “Already completed,” and 2) your estimated answers to the final amounts on your 2017 tax return. You may also be eligible to use the IRS Data Retrieval Tool to transfer your tax return information into the FAFSA.

Question 33: What income tax return did you file or will you file for 2017?

The answer to this question may be pre-filled with “Transferred from the IRS.”

If the answer to this question is not pre-filled, you must select the income tax return that you filed or will file for 2017:

- IRS 1040
- IRS 1040A or 1040EZ
- A foreign tax return
- A tax return for a U.S. territory or a Freely Associated State (including Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, the Marshall Islands, the Federated States of Micronesia, and Palau tax returns)

Question 34: For 2017, what is or will be your tax filing status according to your tax return?

If you filed or will file a tax return, you must select your tax return filing status for 2017:

- Single
- Head of Household
- Married-Filed Joint Return
- Married-Filed Separate Return
- Qualifying Widow(er)
- Don’t know

If you (and if married, your spouse) filed a 1040 or 1040A tax return, select the tax return filing status from the “Filing Status” field of your tax return.

If you (and if married, your spouse) filed a 1040EZ tax return, select Single if you are not married and select Married-Filed Joint Return if you are married.

If you use the IRS Data Retrieval Tool, this field will be populated with the information that you reported to the IRS.

Question 35: Were you eligible to file a 1040A or 1040EZ?

Select Yes if you (and if married, your spouse):

- Filed or will file a 1040 or a foreign tax return but were eligible to file a 1040A or 1040EZ
- Filed a 1040 only to claim Lifetime Learning Tax Credit and you would have otherwise been eligible to file a 1040A or 1040EZ
- Filed a 1040 and were not required to file a tax return

In general, you are eligible to file a 1040A or 1040EZ if you:

- Make less than \$100,000 per year
- Do not itemize deductions
- Do not receive income from your own business or farm
- Do not receive self-employment income or alimony
- Are not required to file Schedule D for capital gains

If you filed a 1040 only to claim Lifetime Learning Tax Credit, and you would have otherwise been eligible for a 1040A or 1040EZ, you should answer “Yes” to this question.

If you filed a 1040 and were not required to file a tax return, you should answer “Yes” to this question.

Select No if you (or if married, your spouse) filed or will file a 1040 and were not eligible to file a 1040A or 1040EZ.

You are not eligible to file a 1040A or 1040EZ if you:

- Itemize deductions
- Receive income from your own business or farm
- Receive self-employment income or alimony
- Are required to file Schedule D for capital gains

If you do not know if you are eligible to file a 1040A or 1040EZ, select Don't know.

Question 36: What was your adjusted gross income for 2017?

The answer to this question may be pre-filled with “Transferred from the IRS.”

This question cannot be left blank unless you will not file a tax return.

If the answer to this question is not pre-filled, enter the amount of your (and if married, your spouse's) adjusted gross income (AGI) in 2017.

AGI includes more than wages earned. For example, it can include alimony, Social Security, and business income.

If you filed a tax return (or if married, you and your spouse filed a joint tax return), the AGI can be found on:

IRS Form	Enter Amount From Line
1040	37
1040A	21
1040EZ	4

If you and your spouse filed separate tax returns, use the table below to calculate your total AGI.

If you filed a...	...and your spouse filed a...	Then enter the following:
1040	1040	Add line 37 from both tax returns and enter the total amount
1040	1040A	Add line 37 from the 1040 and line 21 from the 1040A and enter the total amount

1040EZ	1040EZ	Add line 4 from both tax returns and enter the total amount

If you or your spouse will file a federal tax return, but have not yet filed, estimate the amount that will appear in the lines noted in the table above.

If one of you filed a tax return and the other did not and will not file, use the table below to calculate your total AGI.

If you...	...and your spouse...	Then enter the following:
filed a 1040	did not and will not file	Add line 37 from the 1040 to your spouse's income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)
filed a 1040A	did not and will not file	Add line 21 from the 1040A to your spouse's income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)

did not and will not file	filed a 1040EZ	Add line 4 from the 1040EZ to your income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)

Note: The line numbers above are from the Internal Revenue Service (IRS) tax form, not from the W-2 form.

If your (and if married, your spouse's) 2017 AGI is:

AGI	Enter
Ten million or more	9999999
Negative ten million or less	-9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

If the answer to this question is not pre-filled, enter your total tax amount for 2017.

If you filed (or if married, you and your spouse filed a joint tax return), the total tax can be found on:

IRS Form	Enter Amount From Line

1040EZ	1040EZ	Add line 10 from both tax returns and enter the total amount

If you or your spouse will file a federal tax return, but have not yet filed, estimate the amount that will appear in the lines noted in the table above.

Note: The line numbers above are from the Internal Revenue Service (IRS) tax form, not from the W-2 form.

If your total tax for 2017 is:

Income Tax	Enter
Ten million or more	9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Note: Income tax is not income. It is the amount of tax that you (and if married, your spouse) paid on your income earned from work. Your income tax amount should not be the same as your adjusted gross income (AGI).

Question 38: How many exemptions did you claim?

The answer to this question may be pre-filled with “Transferred from the IRS.” This question cannot be left blank if you (and if married, your spouse) filed or will file a 2017 income tax return.

If you filed (or if married, you and your spouse filed a joint tax return), the total exemptions can be found on:

- IRS Form 1040 – Use Line: 6d.
- IRS Form 1040A – Use Line: 6d.
- IRS Form 1040EZ, and didn’t check either box on line 5, enter 01 if you are single, or 02 if you are married.
- IRS Form 1040EZ, and checked either the “you” or “spouse” box on line 5, use 1040EZ worksheet line F to determine the number of exemptions (\$4,500 equals one exemption).

If you are married, but filed or will file separate tax returns for 2017, add your and your spouse’s exemptions.

Note: The line numbers above are from the IRS tax form, not from the W-2 form.

Question 39: How much did you earn from working in 2017?

This question cannot be left blank.

Find the scenario that best fits your tax filing status.

- If you did not file taxes, include the information from your 2017 W-2 Forms – box numbers 1 + 8.
- If you are married and use the IRS Data Retrieval Tool (IRS DRT) to transfer information from a joint tax return into your FAFSA, you must manually enter your income earned from work. Report your and your spouse’s earnings separately. You can use your tax return, W-2s, or other earning statements to calculate your income earned from work. Include income that you earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.
- If you are not married and use the IRS DRT to transfer your information from the IRS into your FAFSA, the answer to this question will be identified as “Transferred from the IRS.” If you filed a Schedule K-1 (Form 1065), you are required to report that information separately.
- If you are not married, filed or will file a tax return, and do not use the IRS DRT to transfer your information from the IRS into your FAFSA, enter your total earnings from 2017. You can use your tax return, W-2s, or other earning statements to calculate your income earned from work. Include income earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.

- If you are married and do not use the IRS DRT, report your and your spouse’s earnings separately. You can use your tax return, W-2s, or other earning statements to calculate your income earned from work. Include income that you earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.

If you filed:

IRS Form	Use Line
1040	7 + 12 +18* + Box 14 [Code A] of IRS Schedule K-1 (Form 1065)
1040A	7
1040EZ	1

Tax filers who are not self-employed should only use line 7.

*Lines 12 and 18 and Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are for tax filers who are self-employed.

Note: If values from lines 12 or 18 or Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are negative, treat them as zero when determining the income earned from work.

If you are not a tax filer, add up all earnings on your W-2 form(s). The total of these amounts must be reported as income earned from work.

If your 2017 income earned from work is:

Income Earned from Work	Enter
Ten million or more	9999999
Negative ten million or less	-9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 40: How much did your spouse earn from working in 2017?

This question cannot be left blank if student’s marital status is married.

Find the scenario that best fits your spouse’s tax filing status.

- If your spouse did not file taxes, include the information from his / her 2017 W-2 Forms – box numbers 1 + 8.

- If you use the IRS Data Retrieval Tool (IRS DRT) to transfer information from a joint tax return into your FAFSA, you must manually enter income earned from work. Report your and your spouse's earnings separately. You can use your tax return, your spouse's W-2s, or other earning statements to calculate your spouse's income earned from work. Include income that he / she earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.
- If you are married and do not use the IRS DRT, report your and your spouse's earnings separately. You can use your spouse's tax return, W-2s, or other earning statements to calculate his / her income earned from work. Include income that he / she earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.
- If your spouse filed:

IRS Form	Use Line
1040	7 + 12 + 18* + Box 14 [Code A] of IRS Schedule K-1 (Form 1065)
1040A	7
1040EZ	1

Tax filers who are not self-employed should only use line 7.

*Lines 12 and 18 and Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are for tax filers who are self-employed.

Note: If values from lines 12 or 18 or Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are negative, treat them as zero when determining the income earned from work.

If your spouse is not a tax filer, add up all earnings on your spouse's W-2 form(s). The total of these amounts must be reported as income earned from work.

If your spouse's 2017 income earned from work is:

Income Earned from Work	Enter
Ten million or more	9999999
Negative ten million or less	-9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 41: What is the total current balance of your cash, savings, and checking accounts?

Add the account balances of your (and if married, your spouse's) cash, savings, and checking accounts as of the day you submit your Free Application for Federal Student Aid (FAFSA). Enter the total of all accounts as the total current balance. If the total is negative, enter zero as the total current balance.

Do not add student financial aid into your account balances.

If your (and if married, your spouse's) total account balances are

Total Current Balance	Enter
Ten million or more	9999999
Negative or zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 42: What is the net worth of your investments?

The net worth of your (and if married, your spouse's) current investments is the amount left over after deducting the debt from the value of each investment.

For example: You (and if married, your spouse) own an investment property valued at \$100,000; however, \$75,000 in debt is owed on the property. The net worth of the investment is \$25,000 ($\$100,000 - \$75,000 = \$25,000$).

If you (and if married, your spouse) own multiple investments, total the net worth amounts and report them as a lump sum.

For example: You (and if married, your spouse) own two investment properties. The first investment property is valued at \$100,000. The debt that is owed on the property is \$110,000.

To calculate the net worth, perform the following calculation:

- (Value of Property) minus (Debt Owed on Property) = net worth
- $\$100,000 - \$110,000 = -\$10,000$

The net worth of this first investment property is considered \$0, not negative value of \$10,000.

The second investment property is valued at \$200,000. The debt that is owed on the property is \$100,000.

- (Value of Property) minus (Debt Owed on Property) = net worth
- $\$200,000 - \$100,000 = \$100,000$

The net worth of this second investment property is \$100,000.

If the net worth of the first investment property is \$0 and the net worth of the second investment property is \$100,000, then the amount to be reported for both properties is \$100,000.

If your (and if married, your spouse's) net worth as of the day you submit your Free Application for Federal Student Aid (FAFSA) is:

Net worth value	Enter
Ten million or more	9999999
Zero or less than zero	0

Round to the nearest dollar and do not include commas or decimal points.

Investments include real estate (do not include the home in which you live), rental property (includes a unit within a family home that has its own entrance, kitchen, and bath rented to someone other than a family member), trust funds, UGMA and UTMA accounts, money market funds, mutual funds, certificates of deposit, stocks, stock options, bonds, other securities, installment and land sale contracts (including mortgages held), commodities, etc.

Note: UGMA and UTMA accounts are considered assets of the student and must be reported as an asset of the student on the FAFSA, regardless of the student's dependency status. Do not include UGMA and UTMA accounts for which you are the custodian but not the owner.

Investments also include qualified educational benefits or education savings accounts such as Coverdell savings accounts, 529 college savings plans and the refund value of 529 prepaid tuition plans.

If you are not required to report parental information and you own (or if married, your spouse owns) any of these qualified educational benefit plans report the current balance of the plan as a student/spouse asset. The amount to be reported for a prepaid tuition plan is the "refund value" of the plan.

Investment value means the current balance or market value of these investments as of the day you submit your FAFSA. Investment debt means only those debts that are related to the investments.

Investments do not include the home in which you (and if married, your spouse) live; cash, savings and checking accounts; the value of life insurance and retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.).

For more information about reporting investments, call the Federal Student Aid Information Center at 1-800-4-FED-AID (1-800-433-3243).

Question 43: What is the net worth of your current businesses and/or investment farms?

Type the net worth (current value minus debt) of the current businesses and/or investment farms that you (and if married, your spouse) own as of the day you submit your Free Application for Federal Student Aid (FAFSA).

The net worth of your (and if married, your spouse's) current businesses and/or investment farms is the amount left over after deducting the debt from the value of each investment. A negative value of one investment cannot be used to reduce the value of other investments.

For example: You (and if married, your spouse) own two investment properties. The first investment property is valued at \$100,000. The debt that is owed on the property is \$110,000.

To calculate the net worth, perform the following calculation:

- (Value of Property) minus (Debt Owed on Property) = net worth
- \$100,000 – \$110,000 = -\$10,000

The net worth of this first investment property is considered \$0, not negative value of \$10,000.

The second investment property is valued at \$200,000. The debt that is owed on the property is \$100,000.

- (Value of Property) minus (Debt Owed on Property) = net worth
- \$200,000 – \$100,000 = \$100,000

The net worth of this second investment property is \$100,000.

If the net worth of the first investment property is \$0 and the net worth of the second investment property is \$100,000, then the amount to be reported for both properties is \$100,000.

If the net worth is:

Net worth value	Enter
Ten million or more	9999999
Zero or less than zero	0

Round to the nearest dollar and do not include commas or decimal points.

A business and/or investment farm value includes the market value of land, buildings, machinery, equipment, inventory, etc. Business and/or investment farm debt means only those debts for which the business or investment farm was used as collateral.

If one of your parents is widowed or divorced and has remarried, answer the questions about that parent and your stepparent. Grandparents, foster parents, legal guardians, older brothers or sisters, widowed stepparents, and aunts and uncles are not considered parents unless they have legally adopted you.

“Married or Remarried” does not include parents who are living together who are not otherwise legally married unless your parents’ state of legal residence recognizes their relationship as a common law marriage. Additionally, if one of your parents is widowed or divorced and has remarried, choose “Married or Remarried” and answer the questions about that parent and your stepparent.

“Separated,” for FAFSA purposes, includes a married couple who is considered legally separated by a state, or if the couple is legally married but has chosen to live separate lives, including living in separate households, as though they were not married. Your parent's answer represents the residency or domicile of their true, fixed, and permanent home.

If your parents are separated or divorced, use the state or country of legal residence for the parent whose information is reported on this application.

Each state determines legal residency differently. You should contact your college's financial aid office for assistance with state of legal residence qualifications.

If your legal parents (biological and/or adoptive) have different states of legal residence, answer for the parent that you lived with most during the last 12 months. If you did not live with one parent more than the other, provide information about the parent who provided more financial support during the last 12 months, or during the most recent year that you actually received support from a parent.

A legal parent includes a biological or adoptive parent, or a person that the state has determined to be your parent (for example, when a state allows another person's name to be listed as a parent on a birth certificate). Grandparents, foster parents, legal guardians, older brothers or sisters, widowed stepparents, and aunts and uncles are not considered parents unless they have legally adopted you.

Question 71: Did your parents become legal residents of their state before January 1, 2014?

- Select Yes if your parents have lived in this state for 5 years or more.
- Select No if your parents have lived in this state for less than 5 years.

Question 72: Month and year your parents became legal residents

You indicated your parents did not become legal residents of the state entered for their state of legal residence before January 1, 2014. You must enter the month and year for the parent who has been a legal resident of the state the longest. If your parents are divorced or separated, use the date for the parent whose financial information you reported on this application.

Enter the month and year your parents became legal residents. Enter two numbers for the month and four numbers for the year. If the month is less than 10, enter a zero in front of the number. For example, August 2015 must be entered as 082015.

Question 73: Your parents' number of family members in 2019–2020 (household size)

To determine your parents' household size, include:

- yourself;
- your parents;
- the number of other children (other than yourself and even if they do not live with your parents) who will receive more than half of their support from your parents between July 1, 2019 and June 30, 2020; and
- the number of people who are not your parents' children but who live with your parents and receive more than half of their support from your parents, and will continue to receive more than half of their support from your parents between July 1, 2019 and June 30, 2020.

Question 74: How many people in your parents' household will be college students in 2019–2020?

Enter the number of people in your parents' household who will attend college between July 1, 2019 and June 30, 2020.

Include:

- Yourself, even if you will attend college less than half-time in 2019–2020.
- Other people in your parents' household only if they will attend college at least half-time in 2019–2020, in a program that leads to a college degree or certificate.

Do not include:

- Your parents, even if they are enrolled at least half-time in 2019–2020 in a program leading to a degree or a certificate.
- Students at a U.S. service academy, because most of their primary educational expenses are paid for by the federal government.

Questions 75–79: Parents Received Medicaid/Supplemental Security Income/Supplemental Nutrition Assistance Program (SNAP)/Free or Reduced Price School Lunch/Temporary Assistance for Needy Families (TANF)/Special Supplemental Nutrition Program for Women, Infants, and Children?

Select the appropriate check box if your parents or anyone in your parents' household received any of the following during 2017 or 2018:

- Medicaid
- Supplemental Security Income (SSI)
- Supplemental Nutrition Assistance Program (SNAP)
- Free or Reduced Price School Lunch
- Temporary Assistance for Needy Families (TANF)
- Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)

Check None of the above if none of these benefits were received during 2017 or 2018.

Note: Family assistance programs such as SNAP and / or TANF might have different names in your parents' state. Also, answering this question will not reduce your eligibility for federal student aid or your eligibility for these federal benefits.

Question 80: Have your parents completed a 2017 income tax return?

This question asks whether or not your parents have filed or will file a 2017 income tax return. If your parents are now married (even if they were not married in 2017) answer this question about them as a couple. If your parents are either not married, divorced, separated, or widowed, answer this question about the parent who is reporting financial information on this application.

Select the option that indicates your parents' 2017 income tax return filing status:

- Already completed
- Will file
- Not going to file

If your parents indicate they “Will file” a 2017 tax return and their 2017 income is similar to their 2016 income, use their 2016 income tax return to provide estimates for questions about their income. If their income is not similar, click Income Estimator for assistance estimating your parents' adjusted gross income, and answer the remaining questions about their income to the best of your ability.

Once your parents file, they must correct the FAFSA, changing 1) their status from “Will file” to “Already completed,” and 2) their estimated answers to the final amounts on their 2017 tax return. They may also be eligible to use the IRS Data Retrieval Tool to transfer their tax return information into the FAFSA.

Question 81: What type of income tax return did your parents file or will they file for 2017?

The answer to this question may be pre-filled with “Transferred from the IRS.”

If the answer to this question is not pre-filled, you must select the income tax return that your parents filed or will file for 2017:

- IRS 1040
- IRS 1040A or 1040EZ
- A foreign tax return
- A tax return for a U.S. territory or a Freely Associated State (including Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, the Marshall Islands, the Federated States of Micronesia, and Palau)

Question 82: For 2017, what is or will be your parents' tax filing status according to their tax return?

If your parents filed or will file a tax return, you must select your parents' tax return filing status for 2017:

- Single
- Head of Household
- Married-Filed Joint Return
- Married-Filed Separate Return
- Qualifying Widow(er)
- Don't know

If your parents filed a 1040 or 1040A tax return, select the tax return filing status from the “Filing Status” field of your parents' tax return.

If your parents filed a 1040EZ tax return, select Single if your parents are not married and select Married-Filed Joint Return if your parents are married.

If your parent uses the IRS Data Retrieval Tool, this field will be populated with the information that he or she reported to the IRS.

Question 83: Were your parents eligible to file a 1040A or 1040EZ?

Select Yes if your parent (or both of your parents if you are reporting information for both parents):

- Filed or will file a 1040 or a foreign tax return but were eligible to file a 1040A or 1040EZ
- Filed a 1040 only to claim Lifetime Learning Tax Credit but would have otherwise been eligible to file a 1040A or 1040EZ
- Filed a 1040 and were not required to file a tax return

In general, your parents are eligible to file a 1040A or 1040EZ if they:

- Make less than \$100,000 per year
- Do not itemize deductions
- Do not receive income from their own business or farm
- Do not receive self-employment income or alimony
- Are not required to file Schedule D for capital gains

If your parents filed a 1040 only to claim Lifetime Learning Tax Credit, and your parents would have otherwise been eligible for a 1040A or 1040EZ, your parents should answer “Yes” to this question.

If your parents filed a 1040 and were not required to file a tax return, your parents should answer “Yes” to this question.

Select No if either of your parents filed or will file a 1040 and were not eligible to file a 1040A or 1040EZ.

Your parents are not eligible to file a 1040A or 1040EZ if they:

- Make \$100,000 or more per year
- Itemize deductions
- Receive income from their own business or farm
- Receive self-employment income or alimony
- Are required to file Schedule D for capital gains

If your parents do not know if they are eligible to file a 1040A or 1040EZ, select Don't know.

Question 84: Is either of your parents a dislocated worker?

This question asks if either of your parents is a dislocated worker. Answer this question about the parent who is completing the application.

In general, a person may be considered a dislocated worker if he/she:

- is receiving unemployment benefits due to being laid off or losing a job and is unlikely to return to a previous occupation;
- has been laid off or received a lay-off notice from a job;
- was self-employed but is now unemployed due to economic conditions or natural disaster;
- is the spouse of an active duty member of the Armed Forces and has experienced a loss of employment because of relocating due to permanent change in duty station;
- is the spouse of an active duty member of the Armed Forces and is unemployed or underemployed, and is experiencing difficulty in obtaining or upgrading employment; or is a displaced homemaker. A displaced homemaker is generally a person who previously provided unpaid services to the family (for example: a stay-at-home mom or dad), is no longer supported by the spouse, is unemployed or underemployed, and is having trouble finding or upgrading employment.

Except for the spouse of an active duty member of the Armed Forces, if a person quits work, generally he/she is not considered a dislocated worker even if, for example, the person is receiving unemployment benefits.

- Select Yes if your parent is a dislocated worker.
- Select No if your parent is not a dislocated worker.
- Select Don't know if you are not sure whether your parent is a dislocated worker. You may contact the financial aid administrator at your college if you need help answering this question.

Note: If you answer Yes, the financial aid administrator at your college may require proof that your parent is a dislocated worker.

Question 85: What was your parents' adjusted gross income for 2017?

The answer to this question may be pre-filled with “Transferred from the IRS.”

If you are a dependent student, this question cannot be blank unless your parents did not and will not file a tax return

The response indicates the adjusted gross income (AGI) reported on your parents' 2017 income tax return.

If your parents filed a joint federal tax return, the AGI can be found on:

IRS Form	Line #
1040	37
1040A	21
1040EZ	4

If your parents filed separate tax returns, use the table below to calculate their total AGI.

If one parent filed a...	...and the other parent filed a...	Then enter the following:
1040	1040	Add line 37 from both tax returns and enter the total amount
1040	1040A	Add line 37 from the 1040 and line 21 from the 1040A and enter the total amount
1040	1040EZ	Add line 37 from the 1040 and line 4 from the 1040EZ and enter the total amount
1040A	1040A	Add line 21 from both tax returns and enter the total amount
1040A	1040EZ	Add line 21 from the 1040A and line 4 from the 1040EZ and enter the total amount
1040EZ	1040EZ	Add line 4 from both tax returns and enter the total amount

Note: If one or both parents will file a federal tax return, but have not yet filed, estimate the amount that will appear in the lines noted in the table above.

If one of your parents has filed a tax return and the other parent did not and will not file, use the table below to calculate their total AGI.

If one parent filed a...	...and the other parent...	Then enter the following:
1040	did not and will not file	Add line 37 from the 1040 to the other parent's income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)
1040A	did not and will not file	Add line 21 from the 1040A to the other parent's income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)
1040EZ	did not and will not file	Add line 4 from the 1040EZ to the other parent's income earned from working (for example, earnings from the W-2 form(s) and/or any other earning statements)

Note: The line numbers above are from the Internal Revenue Service (IRS) tax form, not from the W-2 form.

AGI includes more than wages earned. For example, it can include alimony, Social Security, and business income.

If your parents' 2017 AGI is:

AGI	Enter
Ten million or more	9999999
Negative ten million or less	-9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 86: What was your parents' total income tax for 2017?

The answer to this question may be pre-filled with “Transferred from the IRS.” This question cannot be left blank unless your parents will not file a tax return.

If the answer to this question is not pre-filled, enter your parents’ total tax amount for 2017.

If your parents filed:

IRS Form	Enter Amount From Line
1040	Subtract line 46 from line 56 and enter the total
1040A	Subtract line 36 from line 28 and enter the total
1040EZ	10

If your parents filed separate tax returns, use the table below to calculate their total tax amount.

If one parent filed a...	...and the other parent filed a...	Then enter the following:
1040	1040	Subtract line 46 from line 56 from both tax returns and enter the total amount
1040	1040A	Subtract line 46 from line 56 from the 1040 and subtract line 36 from line 28 from the 1040A and enter the total amount
1040	1040EZ	Subtract line 46 from line 56 from the 1040 and add line 10 from the 1040EZ and enter the total amount
1040A	1040A	Subtract line 36 from line 28 from both tax returns and enter the total amount
1040A	1040EZ	Subtract line 36 from line 28 from the 1040A and add line 10 from the 1040EZ and enter the total amount
1040EZ	1040EZ	Add line 10 from both tax returns and enter the total amount

If one or both parents will file a federal tax return, but have not yet filed, estimate the amount that will appear in the lines noted in the table above.

If you are reporting information for both parents and one parent filed a federal tax return, but the other parent did not, use the line numbers from the tax return your parent filed. If neither of your parents will file a federal tax return, enter zero.

Note: The line numbers above are from the Internal Revenue Service (IRS) tax form, not from the W-2 form.

If your parents’ total tax for 2017 is:

Income Tax	Enter
Ten million or more	9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Note: Income tax is not income. It is the amount of tax that your parents paid on the income that they earned from work. Your parents' income tax amount should not be the same as their adjusted gross income (AGI).

Question 87: How many exemptions did your parents claim?

The answer to this question may be pre-filled with "Transferred from the IRS." This question cannot be left blank if your parents filed or will file a 2017 income tax return. If your parents filed:

- IRS Form 1040 – Use Line: 6d.
- IRS Form 1040A – Use Line: 6d.
- IRS Form 1040EZ, and didn't check either box on line 5, enter 01 if they are not married, or 02 if they are married.
- IRS Form 1040EZ, and checked either the "you" or "spouse" box on line 5, use 1040EZ worksheet line F to determine the number of exemptions (\$4,050 equals one exemption).

If your parents are married or unmarried and both parents living together, but filed or will file separate tax returns for 2017, add both parents' exemptions.

If your parent who is providing financial information on this application is never married, divorced, separated, or widowed, only enter the exemptions for that parent, even if he or she filed a joint tax return for 2017.

Note: The line numbers above are from the IRS tax form, not from the W-2 form.

Questions 88 and 89: How much did your parent earn from working in 2017?

Find the scenario that best fits your parent's tax filing status.

- If your parent did not file taxes, include the information from his / her 2017 W-2 Forms – box numbers 1 + 8.
- If your parent is married and uses the IRS Data Retrieval Tool (IRS DRT) to transfer information from a joint tax return into your FAFSA, you must manually enter income earned from work. Report each parent's earnings separately. Your parents can use their tax return, W-2s, or other earning statements to calculate their separate earning amounts. Include income that they earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.
- If your parent is not married and uses the IRS DRT to transfer his/her information from the IRS into your FAFSA, the answer to this question will be identified as "Transferred from the IRS." If your parent filed a Schedule K-1 (Form 1065), you are required to report that information separately.

- If your parent is single, divorced, separated or widowed; filed or will file a tax return; and does not use the IRS DRT to transfer his/her information from the IRS into your FAFSA, enter his / her total earnings from 2017. Your parent can use his / her tax return, W-2s, or other earning statements to calculate earning amounts. Include income earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.
- If your parents are married, or unmarried and both legal parents live together, and they do not use the IRS DRT, report each parent’s earnings separately. Your parents can use their tax return(s), W-2s, or other earning statements to calculate their separate earning amounts. Include income that they earned from Federal Work-study or any other need-based employment, as well as the amount reported in box 14 (Code A) of IRS Schedule K-1 (Form 1065), if applicable.

For tax filers:

IRS Form	Enter Amount From Lines
1040	7 + 12 + 18* + Box 14 [Code A] of IRS Schedule K-1 (Form 1065)
1040A	7
1040EZ	1

Tax filers who are not self-employed should only use line 7.

*Lines 12 and 18 and Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are for tax filers who are self-employed.

Note: If values from lines 12 or 18 or Box 14 [Code A] of IRS Schedule K-1 (Form 1065) are negative, treat them as zero when determining the income earned from work.

Note: The line numbers above are from the IRS tax form, not from the W-2 form.

If your parent did not file taxes, enter the total amount of earnings from work in 2017. Add up the earnings from the W-2 form and any other earning statements.

If your parent’s 2017 income earned from work is:

Parent’s Income from Work	Enter
Ten million or more	9999999
Negative ten million or less	-9999999
Zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 90: What is the total current balance of your parents’ cash, savings, and checking accounts?

Add the account balances of your parents’ cash, savings, and checking accounts as of the day you submit your Free Application for Federal Student Aid (FAFSA). Enter the total of all accounts as the total current balance. If the total is negative, enter zero as the total current balance.

Do not add student financial aid into the account balances.

If your parents' balances are:

Total Current Balance	Enter
Ten million or more	9999999
Negative or zero	0

Round to the nearest dollar and do not include commas or decimal points.

Question 91: What is the net worth of your parents' investments?

The net worth of your parents' current investments is the amount left over after deducting the debt from the value of each investment.

For example: Your parents own an investment property valued at \$100,000; however, \$75,000 in debt is owed on the property. The net worth of the investment is \$25,000 ($\$100,000 - \$75,000 = \$25,000$).

If your parents own multiple investments, total the net worth amounts and report them as a lump sum.

For example: Your parents own two investment properties.

The first investment property is valued at \$100,000. The debt that is owed on the property is \$110,000.

To calculate the net worth, perform the following calculation:

- (Value of Property) minus (Debt Owed on Property) = net worth
- $\$100,000 - \$110,000 = -\$10,000$

The net worth of this first investment property is considered \$0, not negative value of \$10,000.

The second investment property is valued at \$200,000. The debt that is owed on the property is \$100,000.

- (Value of Property) minus (Debt Owed on Property) = net worth
- $\$200,000 - \$100,000 = \$100,000$

The net worth of this second investment property is \$100,000.

If the net worth of the first investment property is \$0 and the net worth of the second investment property is \$100,000, then the amount to be reported for both properties is \$100,000.

If your parents' net worth as of the day you submit your Free Application for Federal Student Aid (FAFSA) is:

Net worth value	Enter
Ten million or more	9999999
Zero or less than zero	0

Round to the nearest dollar and do not include commas or decimal points.

Investments include real estate (do not include the home in which your parents live), rental property (includes a unit within a family home that has its own entrance, kitchen, and bath rented to someone other than a family member), trust funds, UGMA and UTMA accounts, money market funds, mutual funds, certificates of deposit, stocks, stock options, bonds, other securities, installment and land sale contracts (including mortgages held), commodities, etc.

Note: UGMA and UTMA accounts are considered assets of the student and must be reported as an asset of the student on the FAFSA, regardless of the student's dependency status. Do not include UGMA and UTMA accounts for which your parents are the custodian but not the owner.

Investments also include qualified educational benefits or education savings accounts such as Coverdell savings accounts, 529 college savings plans and the refund value of 529 prepaid tuition plans.

Note: Students who must report parental information on this form should report all qualified educational benefits or education savings accounts owned by the parents and/or the dependent student as part of the parental assets.

Investments do not include the home in which your parents live; cash, savings and checking accounts; the value of life insurance and retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.).

Investment value means the current balance or market value of these investments as of the day you submit your FAFSA form. Investment debt means only those debts that are related to the investments.

For more information about reporting investments, call the Federal Student Aid Information Center 1-800-4-FED-AID (1-800-433-3243).

Question 92: What is the net worth of your parents' current businesses and/or investment farms?

Enter the net worth of your parents' current businesses and/or investment farms as of the day you submit your Free Application for Federal Student Aid (FAFSA). Net worth means current value minus debt (what is owed).

The net worth of your parents' current businesses and/or investment farms is the amount left over after deducting the debt from the value of each investment. A negative value of one investment cannot be used to reduce the value of other investments.

For example: Your parents own two investment properties.

The first investment property is valued at \$100,000. The debt that is owed on the property is \$110,000.

To calculate the net worth, perform the following calculation:

- (Value of Property) minus (Debt Owed on Property) = net worth
- \$100,000 – \$110,000 = -\$10,000

The net worth of this first investment property is considered \$0, not negative value of \$10,000.

The second investment property is valued at \$200,000. The debt that is owed on the property is \$100,000.

- (Value of Property) minus (Debt Owed on Property) = net worth
- \$200,000 – \$100,000 = \$100,000

The net worth of this second investment property is \$100,000.

If the net worth of the first investment property is \$0 and the net worth of the second investment property is \$100,000, then the amount to be reported for both properties is \$100,000.

If the net worth is:

Net worth value	Enter
Ten million or more	9999999
Zero or less than zero	0

Round to the nearest dollar and do not include commas or decimal points.

A business and/or investment farm value includes the market value of land, buildings, machinery, equipment, inventory, etc. Business and/or investment farm debt means only those debts for which the business or investment farm was used as collateral.

Business value does not include the value of a small business if your family owns and controls more than 50% of the business and the business has 100 or fewer full-time or full-time equivalent employees. For small business value, your family includes (1) persons directly related to you such as a parent, sister, or cousin or (2) persons who are or were related to you by marriage such as a spouse, stepparent, or sister-in-law.

For more information about reporting investments, call the Federal Student Aid Information Center 1-800-4-FED-AID (1-800-433-3243).

Question 93a: What were your parents' total education credits?

1040	1040	Add line 50 from both tax returns and enter the total amount
1040	1040A	Add line 50 from the 1040 and line 33 from the 1040A and enter the total amount
1040A	1040A	Add line 33 from both tax returns and enter the total amount

If one or both parents will file a federal tax return, but have not yet filed, estimate the amount that will appear in the lines noted in the table above.

Federal Work-study is income earned from work. This income should appear on your parents' W-2 form and should be reported as wages, whether or not your parent is a tax filer. Do not worry about the fact that you are reporting work-study income in both places. The amounts from the Parents' Additional Financial Information fields are treated differently in the EFC calculation, and your parents will not be penalized.

Round to the nearest dollar and do not include commas or decimal points.

Question 94b: How much did your parents pay to their IRA or Keogh?

The answer to this question may be pre-filled with "Transferred from the IRS."

In general, a person may be considered a dislocated worker if he or she:
