

Tax Responsibilities for International Students

SAIC International Affairs
International Student Services
February 2022

All F and J students who were present in the United States during 2021 are required to submit a tax return to the Internal Revenue Service (IRS) and potentially the state of Illinois. **Those who were present in the U.S. during 2021 but did not earn income are still required to submit at least one tax form.**

*The IRS and Illinois deadline to submit 2021 tax forms is **April 18, 2022.***

International Affairs has put together the following document to outline your basic tax filing responsibilities and provide you with valuable resources to meet them. However, please note that this document does not constitute professional tax advice. **SAIC International Affairs staff are not tax experts and therefore cannot, by law, answer specific tax questions or help you prepare your tax forms.** Ultimately, it is your responsibility to meet your U.S. tax obligations and to do so accurately.

Who must file a tax return?

- All F and J students who were present in the U.S. during 2021.
- All F-2 and J-2 spouses/children who were present in the U.S. in 2021.
- *If you were NOT physically present in the U.S. during 2021 you do not need to file a tax return this year!*

Why should I file a tax return?

- To properly maintain your F or J status.
- To comply with IRS and Illinois state law.
- To support public libraries, parks, education, research, and other items the government funds.
- To possibly get a refund of some of the taxes you have already paid!

How do I file my tax return?

- All F and J students who were present in the U.S. during 2021 must submit tax forms to the U.S. federal government (IRS).
- If you earned money in Illinois during 2021 you must also submit tax forms to the Illinois state government.
- SAIC International Affairs has arranged for you to have access to software that will help you file your federal tax paperwork. This software is called Sprintax.
- Illinois state tax forms can be completed through Sprintax for an additional fee. However, they may also be downloaded from www.revenue.state.il.us and completed independently.

When is my tax return due?

- Tax returns must be postmarked to the IRS and Illinois (if applicable) by April 18, 2022.

IRS Scams

The Internal Revenue Service (IRS) and the state of Illinois do not call individuals about their tax paperwork.

If you receive a phone call from a person claiming to be from the IRS, this is a scam. Do not provide the caller with any personal information or money.

International students have been increasingly targeted by scammers posing as government offices. Again, these offices will not call you. Please be wary of any phone calls from individuals posing as these agencies, and report any suspicious calls to International Affairs or Campus Security.

ILLINOIS STATE TAX RETURN

Preparing an Illinois state tax return:

- If you earned money from an Illinois source (e.g. SAIC) during 2021 you must complete an Illinois state tax return in addition to your federal return.
- If you did not earn money from an Illinois source during 2021 you do not need to file an Illinois state tax return.
- Illinois state tax forms can be completed through Sprintax for an additional fee or on your own at no cost. Instructions can be downloaded from www.revenue.state.il.us
- You will need to complete:
 - Form [IL-1040](#)
 - [Schedule NR](#)
- If Sprintax determined that you are a *Resident for Tax Purposes*, complete form IL-1040 only. Do not complete Schedule NR.
- ❖ Remember, Illinois tax forms must be postmarked April 18, 2022!

Tips for preparing your Illinois state tax return, if you chose to complete it yourself without using the Sprintax software:

- Complete your federal tax return first. You will need information calculated on your federal return to complete the Illinois state return.
- You will start with form IL-1040, switch to Schedule NR, and then return to IL-1040.
- Tax forms can seem more intimidating than they really are. Read through the questions carefully and skip any that don't pertain to you (i.e. skip lines that ask about types of income or tax forms that you did not receive).
- Don't forget to print 2 copies of your tax forms. Mail one copy to the Illinois Department of Revenue and keep the second for your records.
- Be sure to sign and date your tax return before mailing.
- Pay attention to the different mailing addresses for tax returns with payment enclosed and returns without payment enclosed.
