

RESOURCES AND INFORMATION FOR NON-STUDENT RESIDENTS REPORTING SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, OR STALKING

Any member of the SAIC community who is providing information regarding reports of sexual assault, domestic violence, dating violence, and/or stalking should be aware of available resources, as well as SAIC’s policies and procedures regarding these matters.

Making a Report:

- You have the right to choose whether to report this incident to SAIC, law enforcement, or both. We can assist you in notifying the police and Campus Security (or a designated SAIC staff member). You may also decline to notify the police. You can find contact information for these individuals on the reverse side.
- SAIC will maintain the privacy of your information by sharing it only with those SAIC employees who “need to know” in order to assist in the review, investigation, or resolution of the report. If an investigation is required, the information may also be shared with the alleged offender(s) or others as required to conduct a complete and fair investigation.
- Although SAIC manages this information with discretion, it is not possible to maintain confidentiality for any information. Individuals are encouraged to pursue confidential resources should they prefer (see below).
- SAIC does not publicize the name of crime victims nor does it include identifiable information in Campus Security’s Daily Crime Log (please see Annual Security Report).
- It is important to preserve evidence that may be helpful if you choose to make a report to SAIC or law enforcement (e.g. text messages or pictures).

Supportive Measures:

- You may request supportive measures from SAIC and utilize safety supports such as SAFE Ride and Campus Security.
